

# Eggcrate Layin Troffer

## LY14 • LY22 • LY24

**Available in white "WEC" (suffix)**  
**Available in silver "SEC" (suffix)**

*The "eggcrate" louver is composed of 1/2"Lx1/2"W squares that are 3/8" thick. A standard sized sheet measures 47-3/4" x 23-3/4" and from that standard size they are cut to size to fit the door for the specific fixture ordered. These are packed 15 pcs per carton.*

*A white or silver eggcrate on your layin fixture, not only enhances the look of your ceiling fixture, but breaks the norm of the standard prismatic lensed fixture, it is also more soothing to the human eye by cutting down on the glare rendered by the standard prismatic lensed layin fixture.*

*White or silver eggcrate louvers are upgrades to your standard 1'x4', 2'x2' and 2'x4' layin fixtures. When ordering your fixtures, these can be recognized by the "WEC" suffix on the part number for the WHITE Eggcrate and "SEC" suffix on the part number for the SILVER Eggcrate fixture. T8-T5 and LED lamp variations with different types of energy efficient ballasts can also be specified with your Eggcrate lay-in Fixture.*
